

Long Division

I come home from school  
I got a math sheet  
I come home from school  
I'm dying from the heat  
I come home from school  
I really gotta work  
I come home from school  
Long division's driving me berserk!

But Daddy comes in, Daddy divides  
My Mama comes in, Mama multiplies  
And then my Sister comes in  
Sister loves subtraction  
My brother comes in  
He wants in on the action

So I bring my brother down...  
With a number  
I bring my brother down...  
We start again  
Unless that number is  
Less than the divisor  
Then it's the remainder  
Of the dividend

DMSB, Daddy, Mama, Sister, Brother  
A family, happy helping out each other  
DMSB, solving problems w/ precision  
The mystery of looooong division  
Lo-o-o-o-ong division (3x)

Three hundred twenty three  
Divide by seven  
Daddy says, "Proceed  
A little at a time..."  
Mama multiplies  
Seven times four  
Sister then subtracts,  
And Brother brings us down the line

But Daddy comes in, Daddy divides  
My Mama comes in, Mama multiplies  
And then my Sister comes in  
Sister loves subtraction  
My brother comes in  
He wants in on the action

So I bring my brother down...

**With a number  
I bring my brother down...  
We start again  
Unless that number is  
Less than the divisor  
Then it's the remainder  
Of the dividend**

**DMSB, Daddy, Mama, Sister, Brother  
A family, happy helping out each other  
DMSB, solving problems w/ precision  
The mystery of looooong division  
Lo-o-o-o-ong division (3x)  
Whatcha got then?  
Tell me everyone:  
46, with a remainder of 1!!  
Lo-o-o-o-ong division (3x)**
